MASTER TIME TABLE PHASE 3 PART-II BATCH 2023-24

DAY	DATE	8am - 9am	9am-10 am	10am-1pm	1pm-2pm	2pm-3pm	3pm-4pm	4pm-6pm
1		Departmental Orientation: Paediatrics, Obs & Gynae, Surgery and Medicine under the Guidance of Medical Education Unit under respective Medical colleges						
2		LECTURE IM 10.1: Define, describe and differentiate between acute and chronic renal failure. IM 10.2-Classify, describe and differentiate the pathophysiologic causes of acute renal failure ; PA28.3 Define and describe the etiology, precipitating factors, pathogenesis, pathology, laboratory urinary findings, progression and complications of acute renal failure	LECTURE OG4.1: Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis	CLINICS / SKILLS LAB	LUNCH BREAK	ORTHO SEMINAR : Approach to Polytrauma Patients. Lead Department: Orthopaedics, Integration with G. Surgery/FSM	EVENING CLERKSHIP	
3		LECTURE - UTI PE21.1 Enumerate the etio-pathogenesis, clinical features, complications and management of Urinary Tract infection in children(Nested Micro)	Lecture SU 29.1 Describe the causes, investigations and principles of management of Hematuria	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM Module 4.1 DEPTS: MEDICINE/PSY/DERMA /PUL MED Foundation of Communication 5 Introductory small group session - 1 hour	EVENING CLERKSHIP	

4		PSYCHIATRY LECTURE PSY 1 Introduction to psychiatry PS3.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society	LECTURE : OP8.4 : Enumerate and discuss treatment, modalities in management diseases of the retina.	CLINICS / SKILLS LAB	LUNCH BREAK	ENT SGD: Pre- malignant & Malignant diseases EN 2.11 Describe and identify by clinical examination malignant & pre- malignant ENT diseases DE 4.2 Discuss the role of etiological factors in the formation of precancerous /cancerous lesions DE 4.4 Counsel patients to risks of oral cancer with respect to tobacco, smoking, alcohol and other causative factors (Sharing with Dentistry)			
5		INTEGRATED CLASS on Hematuria	LECTURE OG 5.1: Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	CLINICS / SKILLS LAB	LUNCH BREAK	Pandemic Module 4.1 Care of patients during Pandemics Interactive discussion – 2 hours i. Triage practices to be followed in a clinic / hospital ii.Primary care to be given to a patient on reaching the hospital iii. Steps to be taken to reduce transmission of infections in emergency area. DEPT: GEN MED/PUL MED/ANAES	EVENING CLERKSHIP		
6		PSORIASIS DR 3.3 Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy	PUL MED Lecture Describe and discuss the etiopathogenesis, clinical presentation, functional changes, acute care, stabilization, management and rehabilitation of COPD	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : OP8.1 : Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina.			
7		Lecture SU 29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	LECTURE IM 10.3: Describe the pathophysiology and causes of pre renal ARF, renal and post renal ARF. IM 10.4: Describe the evolution, natural history and treatment of ARF	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 9.2: Describe the steps and observe/assist in the performance of an MTP evacuation	EVENING CLERKSHIP		
8		AS 1.2/ AS 1.4 (LECTURE ANAES) Describe the role of Anaesthesiologist in the medical profession (as a perioperative physician, in the ICU, in the management of acute and chronic pain including labour analgesia, and in the resuscitation of acutely ill), and the prospects of Anaesthesiology as a career	LECTURE RADIODIAGNOSIS (INTRODUCTION) RD 1.1 & 1.12 Define Radiation and the interaction of radiation and importance of radiation protection. Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure	CLINICS / SKILLS LAB	LUNCH BREAK	PSY 2 Common Mental Illnesses: Sign, Symptoms and Etiology PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorders PS3.6 Describe and discuss biological, psychological & social factors & their interactions in the causation of mental disorders			

9		LECTURE on Pelvi-acetabular fractures OR 2.7 Describe and discuss the aetiopathogenesis,, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability (vertically integrated with G. Surgery) OR 2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture Integration : Anatomy	LECTURE IM 10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar SU 29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	EVENING CLERKSHIP		
10		LECTURE - APSGN PE21.2 Enumerate the etio-pathogenesis, clinical features, complications and management of acute post-streptococcal Glomerular Nephritis in children(Nested Patho)	LECTURE OG5.2 Determine maternal high risk factors and verify immunization status	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIAL ON URINE ANALYSIS AND RENAL FUNCTION TEST	EVENING CLERKSHIP		
11		PSY 3 Psychiatric Disorders in Pediatrics I (Autistic Disorders and others) PS 14.1 Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence PS14.5 Enumerate and describe the pharmacological basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence PS14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders	SCABIES IN CHILDREN AND ADULTS DR 5.1 Describe the etiology, Microbiology, Pathogenesis, natural history, Clinical features, Presentations and complications of scabies in adults and children. (Shared with Pediatrics) DR 5.5 Enumerate and describe the pharmacology,administration and adverse reaction of pharmacotherapies for scabies (Nested with Pharma)	CLINICS / SKILLS LAB	LUNCH BREAK	PULMONARY MED SGD PULMONARY FUNCTION TESTS			
12		LECTURE IM 10.5 Describe and discuss the aetiology of CRF. IM 10.6 Stage Chronic Kidney Disease; PA28.4 Define and describe the etiology, precipitating factors, pathogenesis, pathology, laboratory urinary findings progression and complications of chronic renal failure	LECTURE OG 8.7 Enumerate the indications for and types of vaccination in pregnancy	CLINICS / SKILLS LAB	LUNCH BREAK	SGD (ANAES) AS 3.1 Principles of pre-operative evaluation	EVENING CLERKSHIP		
13		LECTURE : OP8.5 : Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway	ENT LECTURE : Benign lesions of the vocal cord EN 4.44 Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord	CLINICS / SKILLS LAB	LUNCH BREAK	SKILLS LAB			
14		LECTURE - NEPHROTIC SYNDROME PE21.3 Discuss the approach and referral criteria to a child with Proteinuria(Nested Patho) Nephrotic Syndrome	Lecture SU 29.3 Describe the Clinical features, Investigations and principles of management of urinary tract infections	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM Module 4.1 DEPTS: MEDICINE/PSY/DERMA /PUL MED Foundation of Communication- 5 Focussed Small Group Discussion -2 hours	EVENING CLERKSHIP		

15		Integrated class SU 29.3 Describe the Clinical features, Investigations and principles of management of urinary tract infections	LECTURE OG 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	CLINICS / SKILLS LAB	LUNCH BREAK	PANDEMIC MODULE 4.1 Role play to highlight the various roles to be played in emergency area - 1 hour DEPTS: GEN MED/PUL MED/ANAES	EVENING CLERKSHIP	
16		PULOMNARY MED LECTURE Define and describe the etiology , types , exposure , environmental influence , pathogenesis, stages , morphology, microscopic appearance and complications of Occupational Lung Disease	RADIODIAGNOSIS Small Group Discussion 1 Nested with Anatomy AN 13.4 Identify the bones and joints of upper limb seen in anteroposterior and lateral view radiographs of shoulder region, arm, elbow, forearm and hand AN 20.6 Identify the bones and joints of lower limb seen in anteroposterior and lateral view radiographs of various regions of lower limb AN 25.7 Identify structures seen on a plain x-ray chest (PA view) IM7.18 Enumerate the indications and interpret plain radiographs of joints	CLINICS / SKILLS LAB	LUNCH BREAK	Small Group Discussion- Lichen Planus DR 4.2 Enumerate and describe the treatment modalities for lichen planus		
17		Lecture SU 29.4 Describe the clinical features, investigations and principles of management of hydronephrosis	LECTURE IM 10.9- Describe and discuss the pathophysiology of anemia and hyperparathyroidism in CKD. LECTURE IM 10.10 Describe and discuss the association between CKD glycemia and hypertension IM 10. 11 Describe and discuss the relationship between CAD risk factors and CKD and in dialysis	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR OG 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms	EVENING CLERKSHIP	
18		LECTURE on Vertebral injuries OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine(CERVICAL) injuries with emphasis on mobilisation of the patient. OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine(THORACOLUMBAR) injuries with emphasis on mobilisation of the patient Integration ; Anatomy	LECTURE IM 10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidism	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar SU 29.4 Describe the clinical features, investigations and principles of management of hydronephrosis	EVENING CLERKSHIP	
19		LECTURE OG 9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	LECTURE - AKI PE21.5 Enumerate the etio-pathogenesis, clinical features, complications and management of Acute Renal Failure in children(Nested with Pathology)	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINAR ACUTE & CHRONIC RENAL FAILURE (GROUP 1)	EVENING CLERKSHIP	

20		INTEGRATED TEACHING WITH BIOCHEMISTRY IM 10.16- Enumerate the indications for and interpret the results of : renal function tests, calcium, phosphorus, PTH, urine electrolytes, osmolality, Anion gap	LECTURE OG 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIALS - HEMATURIA PE21.4 Discuss the approach and referral criteria to a child with Hematuria(Nested with Anatomy)	EVENING CLERKSHIP		
21		PSY 4 MENTAL RETARDATION PS 15.1 Describe the etiology and magnitude of mental retardation PS15.2 Describe and discuss intelligence quotient and its measurement	PEDICULOSIS IN CHILDREN & ADULTS DR 6.1 Describe the etiology pathogenesis and diagnostic features of pediculosis in adults and children.	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Hemorrhagic Shock OR 2.7 Describe and discuss the aetiopathogenesis,, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability (vertically integrated with G. Surgery) OR 1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock Integration: Surgery			
22		LECTURE - CKD PE21.6 Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children(Nested with Pathology)	Lecture SU 29.5 Describe the clinical features, investigations and principles of management of renal calculi	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM : Module 4.1:DEPTS: MEDICINE/PSY/DERMA /PUL MED Foundations of Communication 5: Skills Lab session - 2 hour	EVENING CLERKSHIP		
23		Integrated class SU 29.5 Describe the clinical features, investigations and principles of management of renal calculi	LECTURE OG 10.1 Define, classify and describe the aitiology, pathogenesis,clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	CLINICS / SKILLS LAB	LUNCH BREAK	PANDEMIC MODULE- 4.1 Visit to the hospital with discussion with staff about the practices followed - 2 hours DEPTS: GEM MED/PUL MED/ANAES	EVENING CLERKSHIP		
24		LECTURE on Spinal Cord Injury PM 7.1 Describe and discuss the clinical features, diagnosis work up, work up diagnosis and management of spinal cord injury . :PM 7.7 Enumerate and describe common life threatening complications following SCL like Deep vein Thrombosis, Aspiration Pneumonia, Autonomic dysreflexia Nesting: PMR, Integration : Medicine	LECTURE IM 10.27: Describe and discuss the indications for renal dialysis IM 10.28: Describe and discuss the indications for renal replacement therapy IM 10.29 Describe discuss and communicate the ethical and legal issues involved in renal replacement therapy. Describe artificial kidney, dialysis and renal transplantation	CLINICS / SKILLS LAB	LUNCH BREAK	Lecture SU 29.6 Describe the clinical features, investigations and principles of management of renal tumours	EVENING CLERKSHIP		
25		LECTURE OG 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	LECTURE - HYPERTENSION PE21.17 Describe the etiopathogenesis, grading, clinical features and management of hypertension in children	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINAR CHRONIC LIVER DISEASE	EVENING CLERKSHIP		
26		LECTURE IM 10.27: Describe and discuss the indications for renal dialysis IM 10.28: Describe and discuss the indications for renal replacement therapy IM 10.29 Describe discuss and communicate the ethical and legal issues involved in renal replacement therapy. Describe artificial kidney, dialysis and renal transplantation	LECTURE OG 11.1 Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	CLINICS / SKILLS LAB	LUNCH BREAK	SKILLS LAB	EVENING CLERKSHIP		

27		PSY 5 Psychiatric Disorders in Pediatrics II (ADHD, ODD, and Conduct Disorder) PS 14.1 Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence PS14.5 Enumerate and describe the pharmacological basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence PS14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders	MANAGEMENT OF PYODERMA DR 15.3 Enumerate the indications and describe the pharmacology indications and adverse reaction of topical and systemic drugs used in treatment of pyoderma.	CLINICS / SKILLS LAB	LUNCH BREAK	FORMATIVE ASSESSMENT			
28		LECTURE- RHEUMATOLOGY PE22.1 Enumerate the common Rheumatological problems in children. Discuss the clinical approach to recognition and referral of a child with Rheumatological problem PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA KAWASAKI DISEASE	Lecture SU 29.7 Describe the principles of management of acute and chronic retention of urine	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : OP8.2 : Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	EVENING CLERKSHIP		
29		RD 1.10 Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments	ENT LECTURE: Stridor EN 4.47 Describe the clinical features, investigations and principles of management of Stridor PE 28.7 Discuss the etiology, clinical features and management of Stridor in children (Sharing with Paediatrics)	CLINICS / SKILLS LAB	LUNCH BREAK	ENT SGD: Stridor EN 4.47 Describe the clinical features, investigations and principles of management of Stridor PE 28.9 Elicit, document and present age appropriate history of a child with upper respiratory problem including Stridor (Sharing with Paediatrics) Tracheostomy EN 4.50 Observe and describe the indications for and steps involved in tracheostomy			
30		Integrated class SU 29.7 Describe the principles of management of acute and chronic retention of urine	LECTURE OG 12.1 Define, classify and describe the etiology and pathology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	CLINICS / SKILLS LAB	LUNCH BREAK	PANDEMIC MODULE-4.1 Debriefing and Feedback - 1hour DEPTS: GEN MED/PUL MED/ANAES	EVENING CLERKSHIP		
31		SU 29.8 Describe the clinical features, investigations and principles of management of bladder cancer	LECTURE IM7.1 Describe the pathophysiology of autoimmune disease IM7.2 Describe the genetic basis of autoimmune disease IM7.3 Classify cause of joint pain based on the pathophysiology	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OBG 13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito- anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor	EVENING CLERKSHIP		

32		LECTURE on Peripheral Nerve Injuries OR 11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulna, Median, Lateral Popliteal and Sciatic Nerves Integration: Anatomy, Surgery, Medicine	LECTURE IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar SU 29.8 Describe the clinical features, investigations and principles of management of bladder cancer	EVENING CLERKSHIP		
33		LECTURE OG 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	LECTURE PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA JIA	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINAR SLE / RHEUMATOID ARTHRITIS (GROUP 3)	EVENING CLERKSHIP		
34		LECTURE IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	LECTURE OG 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy.	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Paraplegia & Quadriplegia with Bladder and Bowel Involvement PM 7.1 Describe and discuss the clinical features, diagnosis work up, work up diagnosis and management of spinal cord injury . PM 7.7 Enumerate and describe common life threatening complications following SCL like Deep vein Thrombosis, Aspiration Pneumonia, Autonomic dysreflexia Nesting: PMR, Integration : Medicine	EVENING CLERKSHIP		
35		LECTURE PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA SLE/HSP	Lecture SU 29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM- Module 4.2: OBS AND GYNAE Case Studies in Medicolegal and Ethical situations- Introduction to case-1 hour	EVENING CLERKSHIP		
36		Lecture SU 29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	LECTURE OG 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy.	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.3 Managing Death during Pandemics Interactive discussion – 1 hour a. Confirmation and documentation of death b. Steps to be taken to reduce transmission of infections c. Attitude and Communication Issues related to handling of dead bodies d Responding to media Role Play for communication skills and documentation with debriefing and feedback - 1 hour DEPTS: GEN MED/PUL MED/ANAEs	EVENING CLERKSHIP		

37		Lecture SU 29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	GENERAL MEDICINE INTEGRATED TEACHING WITH ORTHOPEDICS IM7.7 Discriminate, describe and discuss distinguishing articular from periarticular complaints IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement IM7.9 Describe the common signs and symptoms of articular and periarticular diseases	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR ON APH	EVENING CLERKSHIP		
38		LECTURE on Spondylitis OR 6.1 Describe and discuss the clinical features, Investigations and principles of management of degenerative condition of spine (Cervical Spondylitis, Lumber Spondylitis, PIVD)	LECTURE IM7.10 Describe the systemic manifestations of rheumatologic disease IM7.22 Select, prescribe and communicate treatment option for systemic rheumatologic conditions	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar SU 29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	EVENING CLERKSHIP		
39		LECTURE OG 12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	LECTURE PE 19.1 Explain the components of the Universal Immunization Program and the National Immunization Program 19.2 Explain the epidemiology of Vaccine preventable diseases	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINARS OSTEOPOROSIS	EVENING CLERKSHIP		
40		LECTURE IM7.19 Develop an appropriate treatment plan for patients with rheumatologic diseases IM7.23 Describe the basis for biologic and disease modifying therapy in rheumatologic diseases	LECTURE OG 12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIALS 19.3 (A) Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications - BCG, OPV, Hep B IPV, Pentavalent/ DPT/TdaP/Td/TT	EVENING CLERKSHIP		
41		LECTURE 19.3 (B) Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications - Rota, Measles/MR/MMR/JEV, PCV	Lecture SU 29.11 Describe clinical features, investigations and management of urethral strictures	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM- Module 4.2: OBS AND GYN AE Case Studies in Medicolegal and Ethical situations- SDL 2hours	EVENING CLERKSHIP		
42		Integrated class SU 29.11 Describe clinical features, investigations and management of urethral strictures	LECTURE OG 12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV	CLINICS / SKILLS LAB	LUNCH BREAK	SKILLS LAB	EVENING CLERKSHIP		
43		Lecture SU 30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis.	GENERAL MEDICINE INTEGRATED TEACHING IM7.21 Crystalline arthropathies	CLINICS / SKILLS LAB	LUNCH BREAK	OG 13.3 and 13.5 TUTORIAL	EVENING CLERKSHIP		
44		LECTURE on PIVD OR 6.1 Describe and discuss the clinical features, Investigations and principles of management of degenerative condition of spine (Cervical Spondylitis, Lumber Spondylitis, PIVD)	LECTURE IM24.12 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of degenerative joint disease	CLINICS / SKILLS LAB	LUNCH BREAK	Lecture SU 30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	EVENING CLERKSHIP		

45		OG24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	LECTURE VACCINE 19.3 (C) Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications - Typhoid, Varicella, Hep A, Rabies, HPV		LUNCH BREAK	MEDICINE SEMINAR ON COPD	EVENING CLERKSHIP		
46		PSYCHIATRY PHARMACO PSYCHOLOGY-1 (Antipsychotics, antidepressant, antimanic, drugs used in neurodegenerative disorders) PS3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders PH1.19 Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including antipsychotic, antidepressant drugs, antimanics, drugs used for neurodegenerative disorders)	DR 7.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children DR 7.3 Describe the actions and side effects of antifungal therapy		LUNCH BREAK	ENT SDL Emergency procedures in ear, nose & throat EN 3.6 Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat	EVENING CLERKSHIP		
47		LECTURE PE 19.4 Define Cold chain and discuss the methods of safe storage and handling of vaccines	Lecture SU 30.2 Describe the applied anatomy, clinical features and investigations and principles of management of undescended testes.	CLINICS / SKILLS LAB	LUNCH BREAK	OBS & GYNAE AETCOM- Module 4.2: Case Studies in Medicolegal and Ethical situations- Anchoring Lecture-1 hour Discussion and Closure- 1 hour	EVENING CLERKSHIP		
48		ENT LECTURE Otosclerosis EN4.13 Describe the clinical features, investigations and principles of management of Otosclerosis	PUL MED LECTURE Epidemiology of TB and its impact on work , life and economy of India		LUNCH BREAK	SGD : OP1.5 : Define, enumerate the types and the mechanism by which strabismus leads to amblyopia	EVENING CLERKSHIP		
49		Lecture SU 30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis	LECTURE OG 25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management.	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.4 Information Management during Pandemics Visit to the media centre / Tele Medicine unit - 1 hour Role Plays for responding to media with Debriefing and Feedback - 1 hour(Gen Medicine, Pulmonary Med, Anaesthesiology as Integrated Sessions)	EVENING CLERKSHIP		
50		RADIOLOGY RD: LECTURE: Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies	ANAESTHESIOLOGY Describe the role of Anaesthesiologist in Medical profession (as perioperative physician in the ICU, in management of acute and chronic pain including labour anaesthesia and in resuscitation of acutely ill), the prospects of Anaesthesiology as a career.		LUNCH BREAK	PUL MED SGD BCG vaccine Discuss the origin, indications, technique of administration, efficacy and complications	EVENING CLERKSHIP		
51		Lecture SU 30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele	LECTURE IM19.1 Describe the functional anatomy of the locomotor system of the brain IM19.2 Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR ON ECLAMPSIA OG 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	EVENING CLERKSHIP		

52		PSY LECTURE-PHARMACO PSYCHOLOGY-2 (Anxiolytic, sedative and hypnotics, antiepileptics, opioid agonist and antagonist) PH1.19 Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including antipsychotic, antidepressant drugs, antimaniacs, drugs used for neurodegenerative disorders) Nested with Pharmacology	DR 8.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children DR 8.5 Identify and distinguish molluscum contagiosum from other skin lesions		LUNCH BREAK	SKILLS LAB		EVENING CLERKSHIP		
53		LECTURE on Spinal Deformities OR 12.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of Congenital and acquires malformations and deformities of: a. Limbs and Spine- Scoliosis and spinal bifida b. Congenital dislocation of Hip, Trochanteric, b. Congenital talipes equino varus Integration : Anatomy	GENERAL MEDICINE INTEGRATED CLASS IM19.9 Enumerate the indications for use of surgery and botulinum toxin in the treatment of movement disorders	CLINICS / SKILLS LAB	LUNCH BREAK	Tutorial SU 30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele		EVENING CLERKSHIP		
54		LECTURE OG 25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management (continuation of class)	LECTURE : FEVER-PE34.14 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of fever in children	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINAR PLEURAL EFFUSION		EVENING CLERKSHIP		
55		ENT LECTURE Otitis Media with Effusion EN 4.5 Describe the clinical features, choose the correct investigations and describe the principles of management of OME	LECTURE : OP9.2 : Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus.		LUNCH BREAK	RD: SGD Describe preparation of patient for common imaging procedures		EVENING CLERKSHIP		
56		IM19.8 Discuss and describe the pharmacology, dose, side effects and interactions used in the drug therapy of Parkinson's syndrome	LECTURE OG 12.9 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of thyroid disorder in pregnancy	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Lowbackache OR 6.1 Describe and discuss the clinical features, Investigations and principles of management of degenerative condition of spine (Cervical Spondylitis, Lumber Spondylitis, PIVD)		EVENING CLERKSHIP		
57		LECTURE PE34.15 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with exanthematous illnesses like Measles, Mumps, Rubella & Chicken pox- MEASLES	Lecture SU 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	CLINICS / SKILLS LAB	LUNCH BREAK	SKILLS LAB		EVENING CLERKSHIP		

58		PSY LECTURE- Alcohol and Substance Abuse- I PS4.1Describe the magnitude and etiology of alcohol and substance use disorders PS4.3Enumerate and describe the indications and interpret laboratory and other tests used in alcohol and substance abuse disorders PS4.4Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy PS4.6Enumerate and describe the pharmacological basis and side effects of drugs used in alcohol and substance abuse PS4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders	DR 9.1 Classify, describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of leprosy		LUNCH BREAK	SGD : OP1.5 : Define, enumerate the types and the mechanism by which strabismus leads to amblyopia	EVENING CLERKSHIP		
59		Integrated class SU 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	LECTURE OG 27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.6 Palliative Care during Pandemics Interactive discussion – 1 hour Interactive Lecture with videos(Gen Medicine, Pulmonary Med, Anaesthesiology as Integrated Sessions)	EVENING CLERKSHIP		
60		PUL MED LECTURE Microbiology of TB Bacillus, mode of transmission, pathogenesis, clinical evolution, natural history of Pul and extrapul Tb	ANES: Describe the evaluation of Anaesthesiology as a modern speciality		LUNCH BREAK	ENT SGD Instruments in ENT EN 2.10 Identify and describe the use of common instruments used in ENT surgery	EVENING CLERKSHIP		
61		Lecture SU 26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	LECTURE IM24.1 Describe and discuss the epidemiology, pathogenesis, clinical evolution, presentation and course of common diseases in the elderly IM24.18 Describe the impact of the demographic changes in ageing on the population	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 13.4 Demonstrate the stages of normal labor in a simulated environment/ mannequin and counsel on methods of safe abortion.	EVENING CLERKSHIP		
62		PSY LECTURE- Alcohol and Substance Abuse- II (Substances other than alcohol) PS4.1Describe the magnitude and etiology of alcohol and substance use disorders PS4.3Enumerate and describe the indications and interpret laboratory and other tests used in alcohol and substance abuse disorders PS4.4Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy PS4.6Enumerate and describe the pharmacological basis and side effects of drugs used in alcohol and substance abuse PS4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders	DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions.		LUNCH BREAK	ANAES: SGD: Principals of pre anaesthetic evaluation/ Pre Anaesthetic check up	EVENING CLERKSHIP		

[illegible]

70		LectureSU 26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	LECTURE IM24.4 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of vascular events in the elderly	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR ON POST C/S TERM PREGNANCY	EVENING CLERKSHIP		
71		PSY LECTURE- Schizophrenia- 1 PS 5.1 Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders PS 5.2 Enumerate, elicit, describe and document clinical features, positive symptoms of Schizophrenia	DR 9.7 Enumerate and describe the complications of leprosy and its management , including understanding disability and stigma		LUNCH BREAK	SGD : OP9.4 : Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)	EVENING CLERKSHIP		
72		LECTURE on Pott's Spine OR 4.1 Describe and discuss the clinical features, Investigations and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine Integration: Pathology, Microbiology, Surgery	LECTURE IM24.6 Describe and discuss the aetiopathogenesis causes, clinical presentation, difference in discussion presentation identification, functional changes, acute care, stabilization, management and rehabilitation of dementia in the elderly	CLINICS / SKILLS LAB	LUNCH BREAK	LectureSU 26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	EVENING CLERKSHIP		
73		LECTURE OG 26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	LECTURE ANEMIA PE29.1 Discuss the etio-pathogenesis, clinical features, classification and approach to a child with anaemia	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE SEMINAR CVA	EVENING CLERKSHIP		
74		GENERAL MEDICINE INTEGRATED TEACHING WITH PSYCHIATRY IM24.7 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of personality changes in the elderly	LECTURE OG 29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	CLINICS / SKILLS LAB	LUNCH BREAK	ORTHO SEMINAR: Skeletal Tuberculosis and Management: - Pharmacological & Surgical management.	EVENING CLERKSHIP		
75		LECTURE: IRON DEFICIENCY ANEMIA:PE 29.2 Discuss the etiopathogenesis, clinical feature and management of IDA PE 29.5 Discuss the National Anaemia Control Program	Lecture SU 27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM- Module 4.3: Case studies in Medicolegal and Ethical situations:Self-directed learning – 2 hours(MEDICINE AND ALLIED)	EVENING CLERKSHIP		
76		Lecture SU 27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease	LECTURE OG 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae.	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.6 Palliative Care during Pandemics Role Play – 1 hours Debriefing session by intensivist - 1 hour(Gen Medicine, Pulmonary Med, Anaesthesiology as Integrated Sessions)	EVENING CLERKSHIP		

77		PSY LECTURE- Schizophrenia-2 PS5.3Describe the treatment of schizophrenia including behavioural and pharmacologic therapy PS5.5Enumerate and describe the pharmacological basis and side effects of drugs used in schizophrenia PS5.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders (Nested with Pharma)	LECTURE IM 18.1 Describe the functional and the vascular anatomy of the brain	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 17.2 Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding	EVENING CLERKSHIP		
78		Lecture SU 27.3 Describe clinical features, investigations and principles of management of vasospastic disorders	ENT LECTURE Laryngitis EN 4.43 Describe the clinical features, investigations and principles of management of Acute & Chronic Laryngitis. (Sharing with Pediatrics) PE28.5 Discuss the etio-pathogenesis, clinical features and management of Epiglottitis PE28.6 Discuss the etio-pathogenesis, clinical features and management of Acute laryngo-trachea-bronchitis		LUNCH BREAK	RD: SDL : Describe the evolution of Radiodiagnosis. Identify various radiological equipment's In the current era	EVENING CLERKSHIP		
79		LECTURE on TB Hip, Knee OR 4.1 Describe and discuss the clinical features, Investigations and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine Integration: Pathology, Microbiology, Surgery	LECTURE IM 18.2 Classify cerebrovascular accidents and describe the aetiology, predisposing genetic and risk factors pathogenesis of hemorrhagic and non hemorrhagic stroke	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar Peripheral Arterial Disease	EVENING CLERKSHIP		
80		LECTURE OG 31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	LECTURE PE29.3 Discuss the etiopathogenesis, clinical features and management of VIT B12, Folate deficiency anaemia	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS RADIOIMAGING CT, MRI	EVENING CLERKSHIP		
81		PSY LECTURE- Depression PS6.1 Classify and describe the magnitude and etiology of depression PS6.2 Enumerate, elicit, describe and document clinical features in patients with depression PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression PS6.4 Describe the treatment of depression including behavioural and pharmacologic therapy PS6.6	DR 10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis DR 10.4 Describe the prevention of congenital syphilis		LUNCH BREAK	PUL MED SGD Smoking cessation	EVENING CLERKSHIP		
82		LECTURE IM 18.11 Describe the initial supportive management of a patient presenting with a cerebrovascular accident (CVA) IM 18.12 Enumerate the indications for and describe acute therapy of non hemorrhagic stroke including the use of thrombolytic agents IM 18.13 Enumerate the indications for and describe the role of anti platelet agents in non hemorrhagic stroke	LECTURE OG 31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus (continuation of class)	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL PE 29.4 Discuss the etio-pathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome HS/AIHA/HUS	EVENING CLERKSHIP		

83		LECTURE THALASSEMIA PE 29.4 Discuss the etio-pathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome PE 29.16 Discuss the indications for Hemoglobin electrophoresis and interpret report PE29.18 Enumerate the referral criteria for Hematological conditions PE29.20 Enumerate the indications for splenectomy	Lecture SU 27.4 Describe the types of gangrene and principles of amputation	CLINICS / SKILLS LAB	LUNCH BREAK	" AETCOM- Module 4.3: Case studies in Medicolegal and Ethical situations: Anchoring lecture – 1 hour Discussion and closure of case – 1 hour(MEDICINE AND ALLIED) "	EVENING CLERKSHIP		
84		RD: LECTURE : Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure	PUL MED LECTURE Anti Tubercular Drugs , Mechanism of action, Present treatment guidelines		LUNCH BREAK	ENT SGD Surgical procedures in ENT EN 3.5 Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat	EVENING CLERKSHIP		
85		Lecture SU 27.5 Describe the applied anatomy of venous system of lower limb Lecture SU 27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	LECTURE OG 30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS OG30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : OP9.4 : Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)	EVENING CLERKSHIP		
86		PSY LECTURE- Bipolar Disorders PS7.1 Classify and describe the magnitude and etiology of bipolar disorders PS7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders PS7.4 Describe the treatment of bipolar disorders including behavioural and pharmacologic therapy PS7.6 Enumerate and describe the pharmacological basis and side effects of drugs used in bipolar disorders	DR 10.6 Describe the etiology, diagnostic and clinical features of non-syphilitic sexually transmitted diseases (Chancroid, donovanosis and LGV)		LUNCH BREAK	ANAES:SGD Pharmacology of Drugs used in Genaral Anaesthesia.	EVENING CLERKSHIP		
87		Lecture SU 27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	LECTURE IM 18.14 Describe the initial management of a hemorrhagic stroke IM 18.15 Enumerate the indications for surgery in a hemorrhagic stroke	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR ON PUERPERIUM	EVENING CLERKSHIP		

88		ENT LECTURE Hoarseness of voice, Vocal cord palsy EN 4.42 Describe the clinical features, choose the correct investigations and describe the principles of management of hoarseness of voice AN 38.3 Describe anatomical basis of recurrent laryngeal nerve injury (Nesting with Anatomy) EN 4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy	LECTURE : AN31.5 : Explain the anatomical basis of oculomotor, trochlear and abducent nerve palsies along with strabismus.		LUNCH BREAK	PSY SGD-Small Group Discussion Psycho - Neuroanatomy PY10.7Describe and discuss functions of cerebral cortex, basal ganglia, thalamus, hypothalamus, cerebellum and limbic system and their abnormalities PY10.9Describe and discuss the physiological basis of memory, learning and speech	EVENING CLERKSHIP		
89		LECTURE on Acute & Subacute Osteomyelitis OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections: a) Acute Osteomyelitis b) Subacute Osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis Integration: Pathology, Microbiology, Surgery	GENERAL MEDICINE INTEGRATED TEACHING (WITH PMR) IM18.16 Enumerate the indications describe and observe the multidisciplinary rehabilitation of patients with a CVA	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar Varicose Veins of Lower Limbs	EVENING CLERKSHIP		
90		LECTURE OG 30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS OG30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism (continuation class)	LECTURE ^{PE} 29.4 Discuss the etio-pathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sick cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome SICKLE CELL ANEMIA	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS BLOOD ANALYSIS	EVENING CLERKSHIP		
91		LECTURE IM 24.9 Describe and discuss the aetiopathogenesis,clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of CVA in the elderly	OG28.1 Describe and discuss the common causes, pathogenesis, clinical induction, assisted reproductive techniques OG28.2 Enumerate the assessment and restoration of tubal latency	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Approach to Chronic Osteomyelitis patients OR 3.1- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections:a) Acute Osteomyelitis b) Subacute Osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis Integration: Pathology, Microbiology, Surgery	EVENING CLERKSHIP		
92		LECTURE ITP PE 29.6 Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP)	Lecture SU 27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	CLINICS / SKILLS LAB	LUNCH BREAK	SKILLS LAB	EVENING CLERKSHIP		

93		ENT LECTURE Malignancy of the Larynx & Hypopharynx EN 4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Larynx & Hypopharynx	Management of infertility – methods of tubal patency, ovulation		LUNCH BREAK	DR 9.6 Describe the treatment of Leprosy based on the WHO guidelines		EVENING CLERKSHIP		
94		Lecture SU 27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	LECTURE OG 28.3 Describe the principles of ovulation induction OG28.4 Enumerate the various Assisted Reproduction Techniques	CLINICS / SKILLS LAB	LUNCH BREAK	SGD LEUKEMIA AND LYMPHOMA PE29.8 Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children PE 29.9 Discuss the etiology, clinical presentation and management of lymphoma in children		EVENING CLERKSHIP		
95		RD : LECTURE : Define radiation and interaction of radiation and importance of radiation protection	PUL MED LECTURE Drug Resistant TB , Definition, Management, Latest Treatment Regiments,		LUNCH BREAK	SGD : AN30.5 : Explain effect of pituitary tumours or visual pathway		EVENING CLERKSHIP		
96		Lecture SU 27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	LECTURE IM17.1 Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment		EVENING CLERKSHIP		
97		ANAES LECTURE:Principals of monitoring resuscitation in the anaesthesia recovery room	PSY LECTURE- Stress related disorders PS9.1 Enumerate and describe the magnitude and etiology of stress related disorders PS9.2 Enumerate, elicit, describe and document clinical features in patients with stress related disorders PS9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders PS9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy PS9.6 Enumerate and describe the pharmacological basis and side effects of drugs used in stress related disorders PS9.7 Enumerate the appropriate conditions for specialist referral in stress disorders		LUNCH BREAK	RD: SDL : Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments		EVENING CLERKSHIP		

98		LECTURE on Septic Arthritis OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections: a) Acute Osteomyelitis b) Subacute Osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis Integration: Pathology, Microbiology, Surgery	LECTURE IM17.3 Classify migraine and describe the distinguishing features between classical and non classical forms of migraine IM17.11 Describe the indications, pharmacology, dose, side effects of abortive therapy in migraine IM17.12 Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine	CLINICS / SKILLS LAB	LUNCH BREAK	Seminar on Lymphadenopathy	EVENING CLERKSHIP		
99		LECTURE 32.2 Enumerate the causes of postmenopausal bleeding and describe its management	LECTURE:PE 20.1- Define the common neonatal nomenclatures including the classification and describe the characteristics of a normal Term Neonate and High Risk Neonates. PE 20.2 Explain the care of the normal neonate	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS INSTRUMENTATIONS	EVENING CLERKSHIP		
100		ENT LECTURE Ludwig's angina and Neck space abscess EN 4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina EN 4.41 Describe the clinical features, investigations and principles of management of Acute & chronic abscesses in relation to Pharynx	DR 10.8 Enumerate the indication and describe the pharmacology, indication and adverse reactions of drugs used in the non-syphilitic sexually transmitted diseases (Chancroid, Donovanosis and LGV)		LUNCH BREAK	PSY SDL- Small Group Discussion Psychiatric Emergencies PS17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, Deliberate Self Harm, Violent behaviour) PS17.2 Describe the initial stabilisation and management of psychiatric emergencies PS17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies	EVENING CLERKSHIP		
101		LECTURE AETCOM IM 24.21 Enumerate and describe ethical issues in the care of the elderly	LECTURE OG 33(on Lesions of Cervix) Classify, describe and discuss the different benign and pre malignant lesions of cervix along with their management.	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : APPROACH TO RESP DISTRESS IN NEWBORN PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	EVENING CLERKSHIP		

102		LECTURE : OP2.4 : Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis.	PSY LECTURE- Somatoform disorders and Conversion Disorders PS10.1 Enumerate and describe the magnitude and etiology of somatoform, dissociative and conversion disorders PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform, dissociative and conversion disorders PS10.3 Enumerate and describe the indications and interpret laboratory and other tests used in somatoform, dissociative and conversion disorders PS10.4 Describe the treatment of somatoform disorders including behavioural, psychosocial and pharmacologic therapy PS10.6 Enumerate and describe the pharmacological basis and side effects of drugs used in somatoform, dissociative and conversion disorders		LUNCH BREAK	ENT SGD Myringotomy and Myringoplasty EN 4.10 Observe and describe the indications for and steps involved in myringotomy and myringoplasty	EVENING CLERKSHIP		
103		LECTURE:PE20.7 Discuss the etiology, clinical features and management of Birth asphyxia	Lecture SU 17.4 Describe Pathophysiology, mechanism of head injuries	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM- Module 4.4: Case studies in Ethics Empathy and the Doctors Patient Relationship: Introduction 1 hour(SURGERY AND ALLIED)	EVENING CLERKSHIP		
104		Lecture SU 17.5 Describe clinical features for neurological assessment and GCS in head injuries	LECTURE OG 33.4 Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's iodine (VILI), pap smear and colposcopy	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics Interactive Discussion – 2 hours 1.Indications for invasive procedures in Pandemics 2. Points to be verified before emergency procedures 3. Steps to be taken to reduce transmission of infections 4.Attitude and Communication Issues related to complicated procedures(Gen Medicine, Pulmonary Med, Aneasthesiology as Integrated Sessions)	EVENING CLERKSHIP		
105		Lecture SU 17.6 Chose appropriate investigations and discuss the principles of management of head injuries	LECTURE IM 24.22 Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly	CLINICS / SKILLS LAB	LUNCH BREAK	OG 19.4 Enumerate the indications for, describe the steps in and insert and remove an intruterine device in a simulated environment	EVENING CLERKSHIP		
106		LECTURE OG 33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	LECTURE: PT LBW PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation)	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS ECG ANALYSIS	EVENING CLERKSHIP		

107		GENERAL MEDICINE INTEGRATED TEACHING WITH ANAESTHESIA & SURGERY IM 24.11 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of the elderly undergoing surgery	LECTURE OG33.2 Describe the principles of management including surgery and radiotherapy of Benign, Pre-malignant (CIN) and Malignant Lesions of the Cervix	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Approach to Septic Arthritis OR 3.1- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections: a) Acute Osteomyelitis b) Subacute Osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis Integration: Pathology, Microbiology, Surgery	EVENING CLERKSHIP		
108		Lecture SU 17.8 Describe the pathophysiology of chest injuries	LECTURE OG 33.2 Describe the principles & management of endometrial cancer	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics- I Skill development program – with mannequins e.g. intubation, CPR, ALS, PALS etc Integrated BLS Session - Anesthesiology, Medicine, Pediatrics, Surgery PE 27.28, AS 2.1, IM 2.22, PY 11.14, SU 17.2	EVENING CLERKSHIP		
109		Lecture SU 17.9 Describe the clinical features and principles of management of chest injuries.	GENERAL MEDICINE ASSESSMENT ON CVA AND HEADACHE	CLINICS / SKILLS LAB	LUNCH BREAK	SEMINAR ON UTERO VAGINAL PROLAPSE OG 31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	EVENING CLERKSHIP		
110		LECTURE on Inflammatory Arthritis OR 5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of various inflammatory disorder of joints Nesting :PMR PM 4.1 Describe the common patterns, clinical features, investigations, diagnosis and treatment of common causes of arthritis Integration : Medicine	GENERAL MEDICINE INTEGRATED TEACHING RESPIRATORY MEDICINE IM 24.10 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of COPD in the elderly	CLINICS / SKILLS LAB	LUNCH BREAK	Lecture SU 19.1 Describe the etiology and classification of cleft lip and palate	EVENING CLERKSHIP		
111		LECTURE OG 34 Describe and discuss the etiology, pathology, Classification of benign lesions of ovary along with the clinical features, differential diagnosis, investigations and principles of management.	LECTURE : NEONATAL HYPOTHERMIA PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS XRAY	EVENING CLERKSHIP		
112		LECTURE IM11.1 Define and classify diabetes IM11.2 Describe and discuss the epidemiology and pathogenesis and risk factors and clinical evolution of type 1 diabetes	LECTURE OG 34.2 Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIALS(2-4PM) NEONATAL HYPOGLYCEMIA AND HYPOCALCEMIA PE20.13 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypoglycemia PE20.14 Discuss the etiology, clinical features and management of Neonatal hypocalcemia	EVENING CLERKSHIP		

113		LECTURE _ NEONATAL SEIZURE PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures	Lecture SU 19.2 Describe the Principles of reconstruction of cleft lip and palate	CLINICS / SKILLS LAB	LUNCH BREAK	AETCOM- Module 4.4: Case studies in Ethics Empathy and the Doctors Patient Relationship: SDL 2 hours(SURGERY AND ALLIED)	EVENING CLERKSHIP		
114		Lecture SU 23.1 Describe the applied anatomy of adrenal glandsSU 23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland	LECTURE OG 34.2 Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy (continuation of class)	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics- II Skill development program – with mannequins e.g. intubation, CPR, ALS, PALS etc PE 27.28, AS 2.1, IM 2.22, PY 11.14, SU 17.2 INTEGRATED BLS SESSION	EVENING CLERKSHIP		
115		Lecture SU 23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland	LECTURE IM11.3 Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes IM11.4 Describe and discuss the genetic background and the influence of the environment on diabetes	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment OG 35.12 Obtain a PAP smear in a stimulated environment	EVENING CLERKSHIP		
116		LECTURE on DDH OR 12.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of Congenital and acquires malformations and deformities of: a. Limbs and spine- Scoliosis and spinal bifida b.Congenital dislocation of Hip, Tropicollis, c.Congenital talipes equino varus Integration : Anatomy	LECTURE IM11.22 Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	CLINICS / SKILLS LAB	LUNCH BREAK	Lecture SU 23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	EVENING CLERKSHIP		
117		LECTURE OG 27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	LECTURE: NEONATAL SEPSIS PE20.16 Discuss the etiology, clinical features and management of Neonatal Sepsis	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS CSF ANALYSIS	EVENING CLERKSHIP		
118		IM11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis	LECTURE OG 27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis LECTURE OG27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	CLINICS / SKILLS LAB	LUNCH BREAK	SGD on Degenerative & Inflammatory Arthritis PM 4.1 : Describe the common patterns, clinical features, investigations, diagnosis and treatment of common causes of arthritis Integration : Medicine Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of various inflammatory disorder of joints Nesting :PMR	EVENING CLERKSHIP		
119		LECTURE : NEONATAL JAUNDICE PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	Lecture SU 25.1 Describe applied anatomy and appropriate investigations for breast disease	CLINICS / SKILLS LAB	LUNCH BREAK	"AETCOM- Module 4.4: Case studies in Ethics Empathy and the Doctors Patient Relationship: Anchoring lecture – 1 hour Discussion and closure of case – 1 hour "(SURGERY AND ALLIED)	EVENING CLERKSHIP		

120		Lecture SU 25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	LECTURE OG 27.3(Medicine) Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics-III Skill development program – with mannequins e.g. intubation, CPR, ALS, PALS etc" AS 2.2 ADVANCE LIFE SUPPORT MODULE		EVENING CLERKSHIP		
121		LECTURE on CTEV OR 12.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of Congenital and acquires malformations and deformities of: a. Limbs and spine- Scoliosis and spinal bifida b. Congenital dislocation of Hip, Torticollis, C. Congenital talipes equino varus Integration : Anatomy	LECTURE LECTURE IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies IM11.9 Describe and recognise the clinical features of patients who present with a diabetic emergency IM11.10 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology	CLINICS / SKILLS LAB	LUNCH BREAK	SURGERY SEMINAR Benign Breast Diseases (including infections of breast)		EVENING CLERKSHIP		
122		LECTURE IM11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	LECTURE OG 28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility- methods of tubal patency, ovulation induction, assisted reproductive techniques	CLINICS / SKILLS LAB	LUNCH BREAK	SGD: BLEEDING NEONATE PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born		EVENING CLERKSHIP		
123		LECTURE PE20.17PERINATAL INFECTIONS Discuss the etiology, clinical features and management of Perinatal infections	Lecture SU 25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics-IV Skill development program – with mannequins e.g. intubation, CPR, ALS, PALS etc" AS 2.2 ADVANCE LIFE SUPPORT MODULE		EVENING CLERKSHIP		
124		Lecture SU 25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast	LECTURE OG 30.1, (Endocrinology) Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS OG 30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : PY10.18: Describe and discuss auditory & visual evoke potentials		EVENING CLERKSHIP		
125		Lecture SU 25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast	LECTURE IM11.18 Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	CLINICS / SKILLS LAB	LUNCH BREAK	TUTORIAL OG 35.17 Demonstrate the correct technique of urinary catheterisation in a simulated/ supervised environment		EVENING CLERKSHIP		

126		LECTURE on Benign Tumours of Bone OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	GENERAL MEDICINE INTEGRATED TEACHING (ASSESSMENT ON DIABETES)	CLINICS / SKILLS LAB	LUNCH BREAK	SURGERY TUTORIALS/ SEMINARS Carcinoma Breast	EVENING CLERKSHIP		
127		LECTURE OG 29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	LECTURE PE20.9 BIRTH INJURIES Discuss the etiology, clinical features and management of Birth injuries	CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS REVISION OF TOPIC	EVENING CLERKSHIP		
128		LECTURE : OP2.5 : Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis.	LECTURE OG 31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	CLINICS / SKILLS LAB	LUNCH BREAK	"AETCOM- Module 4.5: Case studies in Ethics: The Doctors Industry Relationship: Introduction of Case-1 hour "(SURGERY AND ALLIED)	EVENING CLERKSHIP		
129		LECTURE PE20.20 Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen	Lecture SU 7.1 Describe the Planning and conduct of Surgical audit	CLINICS / SKILLS LAB	LUNCH BREAK	Module 4.2 Emergency Procedures during Pandemics Role Plays for communication skills and documentation - 1 hour Debriefing and Feedback -1hour	EVENING CLERKSHIP		
130		Lecture SU 7.2 Describe the principles and steps of clinical research in General Surgery	PSY LECTURE-Personality disorders PS11.1 Enumerate and describe the magnitude and etiology of personality disorders PS11.2 Enumerate, elicit, describe and document clinical features in patients with personality disorders PS11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders PS11.4 Describe the treatment of personality disorders including behavioural, psychosocial and pharmacologic therapy PS11.5 Demonstrate family education in a patient with personality disorders in a simulated environment PS11.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in personality disorders PS11.7 Enumerate the appropriate conditions for specialist referral	CLINICS / SKILLS LAB	LUNCH BREAK	SGD : AN41.2 : Describe the anatomical aspects of cataract, glaucoma & central retinal artery occlusion.	EVENING CLERKSHIP		
131		ENT LECTURE: URTI EN 4.39 Describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Tonsillitis (Shared with Pediatrics) PE 28.2 Discuss the etio-pathogenesis of Pharyngo Tonsillitis PE 28.3 Discuss the clinical features and management of Pharyngo Tonsillitis	GEN MEDICINE	CLINICS / SKILLS LAB	LUNCH BREAK	OBG TUTORIALS/ SEMINARS	EVENING CLERKSHIP		

132		LECTURE on Malignant Tumour of Bone OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	GENERAL MEDICINE	CLINICS / SKILLS LAB	LUNCH BREAK	SURGERY TUTORIALS/ SEMINARS	EVENING CLERKSHIP		
133		OG28.3Describe the principles of ovulation induction OG28.4 Enumerate the various Assisted Reproduction Techniques		CLINICS / SKILLS LAB	LUNCH BREAK	MEDICINE TUTORIALS/ SEMINARS	EVENING CLERKSHIP		
134		LECTURE ACUTE BACTERIAL MENINGITIS PE 30.1 Discuss the etio-pathogenesis, clinical features , complications, management and prevention of meningitis in children	SU 16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery			AETCOM- Module 4.6: Surgery and allied subjects Case studies in Ethics andThe Doctors Industry Relationship: Introduction of Case – 1 hour	EVENING CLERKSHIP		
135		Malignant Tumour of Bone- OSTEOSARCOMA -LECTURE (60 min) OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant ne tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	LECTURE: PNEUMONIA IM3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia IM3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host			SDL : IM24.15 : Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of vision loss in the elderly.	EVENING CLERKSHIP		
136			LECTURE TOPIC- Puerperium, O.G. 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management (Revision Class)			SGD SU 16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery	EVENING CLERKSHIP		
137		PSY LECTURE- PSY 17 Psychosomatic disorders PS12.1 Enumerate and describe the magnitude and etiology of psychosomatic disorders PS12.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders PS12.3 Enumerate and describe the indications and interpret laboratory and other tests of psychosomatic disorders PS12.4 Describe the treatment of psychosomatic disorders including behavioural, psychosocial and pharmacologic therapy PS12.6	LECTURE AES PE 30.2 Distinguish bacterial, viral and tuberculous meningitis - approach to diagnosis and management of AES including Japanese Encephalitis			Small group Discussion (SKILLS LAB) O.G. 14.1 Enumerate and discuss the diameters of maternal pelvis and types	EVENING CLERKSHIP		

138			PUL MED LECTURE: Obstructive Airway Disease			Approach to Benign Bone Tumour (ABC/UBC/GCT) - SGD (120 min) OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	EVENING CLERKSHIP		
139		SinusitisEN 4.33 Describe the clinical features , choose the correct investigations and describe the principles of management	LECTURE: PNEUMONIA IM3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia IM3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia IM3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia	0		PANDEMIC Module 4.3 Managing Death during Pandemics Interactive discussion – 1 hour Role Play for communication skills and documentation with debriefing and feedback - 1 hour (GEN MED/PUL MED/ ANAES)	EVENING CLERKSHIP		
140			1. DR 11.1 Describe the etiology, Pathogenesis and clinical features of the dermatologic manifestations of HIV and its complication including opportunistic infections.			SGD - INTERPRETATION OF LAB REPORT PE 30.20 Interpret and explain the findings in a CSF analysis	EVENING CLERKSHIP		
141		ANAES LECTURE Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery	RADIOLOGY LECTURE: RD1.4 : Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in OBGYN			AETCOM- Module 4.6: Surgery and allied subjects Case studies in Ethics andThe Doctors Industry Relationship: SDL – 2 hours	EVENING CLERKSHIP		
142		Malignant Tumour of Bone-CHONDROSARCOMA and EWINGS SARCOMA -LECTURE (60 min) OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	LECTURE Topic- Infertility- Describe and discuss on investigations and principles of management of infertility, including ovulation induction and ART (Revision Class)			SGD- IM3.19 Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines	EVENING CLERKSHIP		

143		LECTURE MICROCEPHALY PE 30.4 Discuss the etio-pathogenesis, classification, clinical features, and management of Microcephaly in children	SU 11.5 Describe principles of providing post-operative pain relief and management of chronic pain.			ENT SGD Salivary Gland EN 4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (Nesting with Anatomy) AN 39.2 Explain the anatomical basis of hypoglossal nerve palsy Shared with Surgery SU 21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands SU 21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary gland	EVENING CLERKSHIP		
144		LECTURE : OCCUPATIONAL LUNG DISEASES: PA26.5 Define and describe the etiology, types, exposure, environmental influence, pathogenesis, stages, morphology, microscopic appearance and complications of Occupational lung disease	LECTURE : OP2.7 : Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours.			DR 14.5 Enumerate the indications and describe the indications and adverse reactions of the drugs used in urticaria and angioedema. DR 18.2 Cutaneous features of Hypo and Hyper Thyroidism	EVENING CLERKSHIP		
145		LECTURE PE 30.6 Discuss the etio-pathogenesis, clinical features, and management of Infantile hemiplegia	PSY LECTURE- PSY 18 Anxiety Disorders I (Phobias, GAD, Panic Disorders) PS8.1 Enumerate and describe the magnitude and etiology of anxiety disorders PS8.2 Enumerate, elicit, describe and document clinical features in patients with anxiety disorders PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders			GEN SURGERY SDL: PERIOPERATIVE CARE AND POST OPERATIVE PAIN MANAGEMENT	EVENING CLERKSHIP		
146		LECTURE O.G. 13.1 Enumerate and discuss the physiology of normal labor, conduct of labor, principles of induction and acceleration of labor. (Revision Class)	Drugs used in OAD PUL MED			PANDEMIC Module 4.4 Information Management during Pandemics Interactive discussion - 2 hours a. Responding to media b. Use and misuse of social media for health related messages (GEN MED/PUL MED/ANAEs)	EVENING CLERKSHIP		

147		SU 11.6 Describe Principles of safe General Surgery	DR 11.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for dermatologic lesions in HIV			SDL PE HYDROCEPHALUS Discuss the etio-pathogenesis, classification, clinical features, complication and management of Hydrocephalus in children	EVENING CLERKSHIP		
148		Pathological fractures LECTURE (60 min) OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	LECTURE O.G.23 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management. Enumerate the causes and management of delayed and precocious puberty (Revision Class)			SURGERY SGD SU 11.6 Describe Principles of safe General Surgery	EVENING CLERKSHIP		
149		LECTURE FEBRILE SEIZURE PE 30.7 Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	LECTURE: HIV: IM6.1 Describe and discuss the symptoms and signs of acute HIV seroconversion IM6.2 Define and classify HIV AIDS based on the CDC criteria			Self Directed Learning (SDL) O.G. 8.5 Describe and demonstrate pelvic assessment in a model	EVENING CLERKSHIP		
150		ANAES LECTUREChoose and write a prescription for appropriate premedications for patients undergoing surgery	PSY LECTURE- PSY 19 ANXIETY DISORDER II (OCD, PTSD And others) PS8.1Enumerate and describe the magnitude and etiology of anxiety disorders PS8.2Enumerate, elicit, describe and document clinical features in patients with anxiety disorders PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders FM5.1 Classify common mental illnesses including post-traumatic stress disorder (PTSD)			Approach to Malignant Bone Tumour (Osteosarcoma/Ewing Sarcoma) SGD (120 min) OR 10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of benign and malignant bone tumours and pathological fractures Integration: Pathology, Surgery ,Radio Therapy	EVENING CLERKSHIP		
151		LECTURE : OP2.7 : Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours.	ENT LECTURE Rhinitis EN4.27 Describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Allergic Rhinitis PE31.1 Describe the etio-pathogenesis, management and prevention of Allergic Rhinitis in Children (SHARING WITH PAEDIATRICS)			Small Group Discussion OG 35.12 Obtain a PAP smear in a simulated environment (Revision Class)	EVENING CLERKSHIP		

152		LECTURE MENTAL RETARDATION INT DISABILITY PE 30.10 Discuss the etio-pathogenesis, clinical features and management of Mental retardation in children	SU 21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary gland			AETCOM- Module 4.6: Surgery and allied subjects: Case studies in Ethics and The Doctors Industry Relationship: Anchoring lecture – 1 hour Discussion and closure of case – 1 hour	EVENING CLERKSHIP		
153		LECTURE: HIV: IM6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections IM6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections	RADIOLOGY LECTURE: RD 1.8: Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies			PUL MED SGD/SDL/SEMINAR	EVENING CLERKSHIP		
154		CEREBRAL PALSY LECTURE (60 min) OR 9.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	LECTURE O.G. 24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management			PSY SGD- Small Group Discussion Common Psychological Issues during Adolescence, Temper tantrums and Eating Disorders PE6.7 Describe the common mental health problems during Adolescence PE6.6 Discuss the common Adolescent Eating disorders (Anorexia Nervosa, Bulimia) PE6.13 Enumerate the prevalence and the importance of recognition of sexual and drug abuse in adolescents and children	EVENING CLERKSHIP		
155		Enumerate the appropriate investigations and describe the principles of treatment of disorders of salivary gland	LECTURE EPILEPSY PE 30.8 Define epilepsy. Discuss the pathogenesis, clinical types, presentation and management of Epilepsy in children				EVENING CLERKSHIP		
156		LECTURE: HIV RELATED CONDITIONS: IM6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies IM6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions	LECTURE : OP2.8 : List the investigations helpful in diagnosis of orbital tumours. Enumerate the indications for appropriate referral.			PANDEMIC Module 4.4 Information Management during Pandemics Visit to the media centre / Tele Medicine unit - 1 hour Role Plays for responding to media with Debriefing and Feedback - 1 hour (GEN MED/PUL MED/ANAES)	EVENING CLERKSHIP		
157		LECTURE CEREBRAL PALSY PE 30.11 Discuss the etio-pathogenesis, clinical features and management of children with cerebral palsy	ENT LECTURE Rhinitis EN 4.27 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Allergic Rhinitis.			AETCOM Module 4.7: Obstetrics and Gynaecology Case studies in ethics and patient autonomy Introduction of case – 1 hour	EVENING CLERKSHIP		

158		ANAES LECTUREDescribe the anatomy of the airway and its implications for general Anaesthesia	Oxygen Therapy PUL MED LECTURE			RADIO SGD: RD1.13: Describe the components of the PC & PNDT Act and its medico legal implications	EVENING CLERKSHIP		
159		LECTURE OG 14.4 Describe and discuss the classification; diagnosis; management of abnormal labor (Malpresentations)	PSY LECTURE- PSY 20 ORGANIC PSYCHIATRIC DISORDER PS3.7Enumerate and describe common organic psychiatric disorders, magnitude, etiology and clinical features PS3.8Enumerate and describe the essential investigations in patients with organic psychiatric disorders			SEMINAR- OCCUPATIONAL LUNG DISEASES	EVENING CLERKSHIP		
160		Poliomyelitis & PPRP (LECTURE 60 min) OR 8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	LECTURE: HAART, PEP, etc: IM6.16 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions IM6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis IM6.18 Enumerate the indications and discuss prophylactic drugs used to prevent HIV related opportunistic infections			SEMINAR STATUS EPILEPTICUS PE 30.9 Define status Epilepticus. Discuss the clinical presentation and management	EVENING CLERKSHIP		
161		LECTURE FLOPPY INFANT PE 30.12 Enumerate the causes of floppiness in an infant and discuss the clinical features, differential diagnosis and management	Enumerate the appropriate investigations and describe the principles of treatment of disorders of salivary gland			Small Group Discussion (Skill Lab) Instruments used in Vaginal Delivery	EVENING CLERKSHIP		
162		ENT LECTURENasal Polyps EN 4.25 Describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Nasal Polyps.	RADIOLOGY LECTURE: RD1.6 : Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in Gen. Surgery			1. DR 15.3 Enumerate the indications and describe the pharmacology indications and adverse reaction of topical and systemic drugs used in treatement of pyoderma. DR.17.4. Skin changes in zinc deficiency .	EVENING CLERKSHIP		
163		RADIO LECTURE: RD 1.7: Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Pediatrics	1. DR 12.1 Describe the Etiopathogenesis of Eczema DR 12.3 Classify and grade Eczema			SDL PE 30.14 Discuss the etio-pathogenesis, clinical features and management of Duchene muscular dystrophy	EVENING CLERKSHIP		

164		Pulmonary function testing PULM MED LECTURE	ENT LECTURE Dysphagia EN 4.38 Describe the clinical features, choose the correct investigations and describe the principles of management of type of dysphagia			PANDEMIC Module 4.5 Intensive Care Management during Pandemics. Interactive Discussion – 1 hour Visit to the ICU – 1 hour (GEN MED/PUL MED/ANAEs)	EVENING CLERKSHIP		
165		LECTURE ATAXIA PE 30.15 Discuss the etio-pathogenesis, clinical features and management of Ataxia in children	LECTURE IM2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease IM2.2 Discuss the aetiology of risk factors both modifiable and non modifiable of atherosclerosis and IHD IM2.4 Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD			PSY SGD- Small Group Discussion Psychiatric Emergencies PS17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, Deliberate Self Harm, Violent behaviour) PS17.2 Describe the initial stabilisation and management of psychiatric emergencies PS17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies Discuss about suicide, Neurosis vs Psychosis	EVENING CLERKSHIP		
166		SU 22.1 Describe the applied anatomy and physiology of thyroid	LECTURE : OP9.5 : Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury.			AETCOM Module 4.7: Obstetrics and Gynaecology Case studies in ethics and patient autonomy SDL – 2 hours	EVENING CLERKSHIP		
167		METABOLIC BONE DISEASES - OSTEOPOROSIS , (Lecture 60 min) OR7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease	LECTURE OG 14.4 Describe and discuss the classification; diagnosis; management of abnormal labor (Malpresentations)- continuation class			SDL HEADACHE PE 30.16 Discuss the approach to and management of a child with headache	EVENING CLERKSHIP		
168		ANAEs LECTURE Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia	Approach to Chronic Cough PUL MED LECTURE			SGD : PA36.1 : Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma.	EVENING CLERKSHIP		

169		LECTURE PE23.1 Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA VSD	PSY LECTURE- PSY 21 GERIATRIC PSYCHIATRY-I (Dementia) PS16.1Enumerate and describe common psychiatric disorders in the elderly including dementia, depression and psychosis PS16.2Describe the aetiology and magnitude of psychiatric illness in the elderly PS16.3Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy PS16.4Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment PS16.5Enumerate the appropriate conditions for specialist referral in psychiatric disorders in the elderly			AETCOM Module 4.7: Obstetrics and Gynaecology Case studies in ethics and patient autonomy Anchoring lecture – 1 hour Discussion and closure of case – 1 hour	EVENING CLERKSHIP		
170		SU 22.2 Describe the etiopathogenesis of thyroidal swellings	DR 12.4 Enumerate the indication and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of Eczema.			ENT SGD/SDL- SDL Acute & Chronic Tonsillitis EN 4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Tonsillitis	EVENING CLERKSHIP		
171		LECTURE PE23.1 Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA ASD/PDA	LECTURE OG 34 Describe and discuss the etiology, pathology, classification of benign lesions of ovary along with the clinical features, differential diagnosis, investigations and principles of management.			PANDEMIC Module 4.5 Intensive Care Management during Pandemics.Role Play – 1 hour Debriefing session by intensivist - 1 hour (GEN MED/PUL MED/ANAES)	EVENING CLERKSHIP		
172		ENT LECTUREAdenoid EN 4.26 Describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Adenoids (Shared with Pediatrics) PE 28.1 Discuss the etio-pathogenesis, clinical features and management of Nasopharyngitis	"LECTURE IM2.5 Define the various acute coronary syndromes and describe their evolution, natural history and outcomes IM2.15 Discuss and describe the medications used in patients with an acute coronary syndrome based on the clinical presentation IM2.23 Describe and discuss the indications for nitrates, anti platelet agents, gpIIb IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes"			RADIO SDL: RD 1.5 : Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Internal Medicine	EVENING CLERKSHIP		

173		LECTURE : OP9.5 : Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury.	METABOLIC BONE DISEASES -OSTEOMALACIA and RICKETS, (Lecture 60 min) OR7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease			AETCOM-Module 4.8:Obstetrics and Gynaecology Dealing with Introduction of death. case – 1 hour:	EVENING CLERKSHIP		
174		LECTURE TOF PE23.2 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot's Physiology	SU 22.2 Describe the etiopathogenesis of thyroidal swellings			ANAES SGD/SDLObserve and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room	EVENING CLERKSHIP		
175		LECTURE ACUTE RHEUMATIC FEVER PE23.4 Discuss the etio-pathogenesis, clinical presentation and management of Acute Rheumatic Fever in children	DR 14.1 Describe the Etiology, pathogenesis and clinical precipitating features and classifications of arteria and angioedema			GEN MED SGD/SDL IM2.11 Interpret a Chest X-ray, ECG and markers of acute myocardial infarction	EVENING CLERKSHIP		
176		PSY LECTURE- PSY 22 GERIATRIC PSYCHIATRY-II (Disorders other than Dementia) PS16.1Enumerate and describe common psychiatric disorders in the elderly including dementia, depression and psychosis PS16.2Describe the aetiology and magnitude of psychiatric illness in the elderly PS16.3Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy PS16.4Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment	ENT LECTUREMeniere's Disease EN4.20 Describe the clinical features, investigations and principles of management of Meniere's Disease			AETCOM-Module 4.8:Obstetrics and Gynaecology Dealing with death SDL- 2 Hours	EVENING CLERKSHIP		
177		Post TB Sequelae PUL MED LECTURE	RADIO LECTURE: RD 1.3 : Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT			Small Group Discussion (Skill Lab) Instruments used in LSCS.	EVENING CLERKSHIP		

178		LECTURE CONGESTIVE CARDIAC FAILURE PE23.3 Discuss the etio-pathogenesis, clinical presentation and management of cardiac failure in infant and children	LECTURE OG 34.2 Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principle of management including staging laparotomy			PANDEMIC Module 4.6 Palliative Care during Pandemics. Interactive discussion – 1 hour Visit to the palliative care unit – 1 hour (GEN MED/PUL MED/ANAES)	EVENING CLERKSHIP		
179		IM2.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG IM2.17 Discuss and describe the indications and methods of cardiac rehabilitation	LECTURE : PA36.1 : Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma.			DR 8.7 Enumerate the indications and adverse reaction of pharmacotherapies for common viral illnesses of the skin. DR 18.1 Cutaneous features of type II diabetes	EVENING CLERKSHIP		
180		SU 22.4 Describe the clinical features, classification and principles of management of thyroid cancer	OR 14.4 LOWER LIMB AMPUTATION Describe various amputations of the lower limb. Discuss the ideal stump and various prosthesis used in rehabilitation of patient with below knee amputation.			AETCOM-Module 4.8:Obstetrics and Gynaecology Dealing with death Anchoring lecture – 1 hour Discussion and closure of case – 1 hour	EVENING CLERKSHIP		
181		LECTURE INFECTIVE ENDOCARDITIS PE23.6 Discuss the etio-pathogenesis, clinical features and management of Infective endocarditis in children	ANAES LECTURE Observe and describe the principles and the steps/ techniques involved in day care anesthesia			SEMINAR; thyroid swelling	EVENING CLERKSHIP		
182		NTM PUL MED LECTURE	ENT LECTUREHearing loss EN4.12 Describe the clinical features, choose the correct investigations and describe the principles of management of Hearing loss EN4.14 Describe the clinical features, investigations and principles of management of Sudden Sensorineural Hearing Loss IM24.17 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of hearing loss in the elderly (Sharing with Internal Medicine)			SKILLS LAB IM2.22 Perform and demonstrate in a mannequin BLS	EVENING CLERKSHIP		
183		LECTURE DIABETES MELLITUS PE33.4 Discuss the etio-pathogenesis, clinical types, presentations, complication and management of Diabetes mellitus in children	SU 22.4 Describe the clinical features, classification and principles of management of thyroid cancer			SKILLS LAB /INTERNAL ASSESSMENT	EVENING CLERKSHIP		

184		LECTURE IM2.13 Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram IM2.14 Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome	LECTURE TOPIC - Complications of third stage of labour OG 16 Describe and discuss retained placenta and placenta accreta syndrome			Module 4.6 Palliative Care during Pandemics Role Play – 1 hours Debriefing session by intensivist - 1 hour (GEN MED/PUL MED/ANAEs)	EVENING CLERKSHIP		
185		Revision Class (for any topic uncovered)	PSY LECTURE-PSY 23 Psychosexual and Gender Identity Disorders PS13.1 Enumerate and describe the magnitude and etiology of psychosexual and gender identity disorders PS13.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of psychosexual and gender identity disorders PS13.3 Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders PS13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural, psychosocial and pharmacologic therapy			SGD/SDL DKA PE33.4 Discuss the etio-pathogenesis, clinical types, presentations, complication and management of Diabetes mellitus in children	EVENING CLERKSHIP		
186		"LECTURE IM2.19 Discuss and describe the pathogenesis, recognition and management of complications of acute coronary syndromes including arrhythmias, shock, LV dysfunction, papillary muscle rupture and pericarditis IM2.20 Discuss and describe the assessment and relief of pain in acute coronary syndromes"	SU 22.5 Describe the applied anatomy of parathyroid and its diseases			Module 4.9: PEDIATRICS Medical Negligence SDL -2hours	EVENING CLERKSHIP		
187		LECTURE DELAYED PUBERTY AND PRECOCIOUS PUBERTY PE33.8 Define precocious and delayed Puberty	1. DR 17.2 Enumerate and describe the various changes in vitamin B complex deficiency			Small Group Discussion (Skill Lab) - Instruments used in Minor Gynaecological Operations	EVENING CLERKSHIP		
188		Revision Class (any topic uncovered)	LECTURE OG 27 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long-term implications of different genital infections (PID, genital TB, etc)			SGD HYPOTHYROIDISM PE33.1 Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children PE33.3 Interpret and explain neonatal thyroid screening report	EVENING CLERKSHIP		
189		Approach to Pleural effusion PUL MED	RADIO LECTURE: RD :: Radiation Hazards and Radiation Protection (ALARA)			"Module 4.9: PEDIATRICS Medical Negligence Anchoring lecture – 1 hour Discussion and closure of case – 1 hour"	EVENING CLERKSHIP		

190		LECTURE EMERGENCY PEDIATRICS PE27.1 List the common causes of morbidity and mortality in the under five children PE27.2 Describe the etio-pathogenesis, clinical approach and management of cardiorespiratory arrest in children	LECTURE : PH1.58 : Describe drugs used in Ocular disorders.			Revision class (for any topic uncovered)	EVENING CLERKSHIP		
191		ENT LECTURE Chronic Suppurative Otitis Media EN 4.7 Describe the clinical features, choose the correct investigations and describe the principles of management of CSOM AN 40.4 Explain anatomical basis of otitis externa and otitis media (Nesting with Anatomy)	"LECTURE HEART FAILURE MANAGEMENT IM 1.7-Enumerate, describe and discuss the factors that exacerbate heart failure IM 1.23- Describe, prescribe and communicate non pharmacologic management of heart failure including sodium restriction, physical activity and limitations IM 1.24- Describe and discuss the pharmacology of drugs including indications, contraindications in the management of heart failure including diuretics, ACE inhibitors, Beta blockers, aldosterone antagonists and cardiac glycosides"			PSY SGD- Legal and ethical issues in psychiatry (SDL) PS19.3 Describe and discuss the basic legal and ethical issues in psychiatry PS 19.4 Enumerate and describe the salient features of the prevalent mental health laws in India FM5.3Describe civil and criminal responsibilities of a mentally ill person Describe various acts and Psychotherapy.	EVENING CLERKSHIP		
192		SU 22.5 Describe the applied anatomy of parathyroid and its diseases	Revision Class (for any topic uncovered)			SGD : OP6.5 : Describe and discuss the angle of the anterior chamber and its clinical correlates.	EVENING CLERKSHIP		
193		LECTURE SHOCK PE27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children	PSY LECTURE- PSY 25 Community Psychiatry CM15.3 Describe National Mental Health program PS19.1Describe the relevance, role and status of community psychiatr			ENT SGD- Airway Emergencies (Time: 2-4 pm) EN 4.48 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Airway Emergencies	EVENING CLERKSHIP		
194		LECTURE OG 29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	1. DR 17.3 Enumerate and describe the various changes in Vitamin C deficiency			Small Group Discussion(Skill Lab) - Instruments used in Major Gynaecological Operations	EVENING CLERKSHIP		
195		LECTURE PE27.7 Describe the COMA etio-pathogenesis, clinical approach and management of an unconscious child	LECTURE: IM4 3. Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India including bacterial, parasitic and viral causes (e.g.Dengue, Chikungunya)			ANAE SGD/SDL	EVENING CLERKSHIP		
196		SU 22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	LECTURE OG 33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer			RADIO SGD : Imaging Features of Pulmonary Tuberculosis	EVENING CLERKSHIP		

197		LECTURE GENERAL PRINCIPLES/PCM/LEAD POISONING PE27.8 Discuss the common types, clinical presentations and management of poisoning in children PE14.4 Discuss the risk factors, clinical features, diagnosis and management of paracetamol poisoning PE14.1 Discuss the risk factors, clinical features, diagnosis and management of Lead Poisoning	LECTURE: IM4 3. Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India - Rickettsial diseases			PUL MED SGD/SDL	EVENING CLERKSHIP		
198		LECTURE HYDROCARBON & OP POISONING PE14.2 Discuss the risk factors, clinical features, diagnosis and management of Kerosene ingestion PE14.3 Discuss the risk factors, clinical features, diagnosis and management of Organophosphorous poisoning	LECTURE IM25.1 Describe and discuss the response and the influence of host, immune status, risk factors and comorbidities on zoonotic diseases (e.g. Leptospirosis, Rabies) and non-febrile infectious disease (e.g. Tetanus) IM25.2 Discuss and describe the common causes, pathophysiology and manifestations of these diseases			GEN MED SGD/SDL- IM3.7 Order and interpret diagnostic tests based on the clinical presentation including: Chest X ray PA view, pleural fluid examination/analysis (PLEURAL EFFUSION)	EVENING CLERKSHIP		
199		LECTURE : PH1.58 : Describe drugs used in Ocular disorders.	GEN MED LECTURE: IM4.6 Discuss and describe the pathophysiology and manifestations of malaria. IM4.22 Describe and discuss the pharmacology, indications, adverse reactions, interactions of antimalarial drugs and basis of resistance			GEN SURGERY SGD SU 22.5 Describe the applied anatomy of parathyroid and its diseases	EVENING CLERKSHIP		
200		ENT LECTURE Chronic Suppurative Otitis Media EN 4.8 Describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of CSOM	SU 20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer			Small Group Discussion - Specimens in OBG	EVENING CLERKSHIP		
201		PSY LECTURE- EEG,ECT and Newer methods of Psychiatric treatment. PY10.12Identify normal EEG forms PY10.8Describe and discuss behavioural and EEG characteristics during sleep and mechanism responsible for its production PS18.2Enumerate the indications for modified electroconvulsive therapy	LECTURE IM4.7 Discuss and describe the pathophysiology and manifestations of the sepsis syndrome			SGD : OP8.4 : Enumerate and discuss treatment modalities in management of diseases of the retina	EVENING CLERKSHIP		

202		LECTURE OG 33.2 Describe the principles of management including surgery and radiotherapy of and Malignant Lesions of the Cervix	LECTURE: IM5.4 Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis			SGD DISTRESS Describe the etio-pathogenesis of respiratory distress in children RESP PE27.3 Describe the clinical approach and management of respiratory distress in children	EVENING CLERKSHIP		
203		LECTURE OXYGEN THERAPY PE27.9 Discuss oxygen therapy, in Pediatric emergencies and modes of administration PE14.5 Discuss the risk factors, clinical features, diagnosis and management of Oxygen toxicity	GEN SURGERY SGD SU 20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer			ANAES SGD/SDL	EVENING CLERKSHIP		
204		Approach to Hemoptysis PUL MED LECTURE	SU 20.2 Enumerate the appropriate investigations and discuss the Principles of treatment of oropharyngeal cancer			RADIO SGD : FAST Scan in Trauma	EVENING CLERKSHIP		
205		GEN MED LECTURE IM5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease. IM5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy	SGD ETAT PE27.11 Explain the need and process of triage of sick children brought to health facility PE27.12 Enumerate emergency signs and priority signs PE27.13 List the sequential approach of assessment of emergency and priority signs "			SKILLS LAB/INTERNAL ASSESSMENT	EVENING CLERKSHIP		
206		SU 8.3 Discuss Medico-legal issues in surgical practice	GEN MED LECTURE IM5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease. IM5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy			GEN MED SEMINAR	EVENING CLERKSHIP		

207		LECTURE OG 26.2 Describe the causes, prevention, clinical features, principles of anagement of genital injuries and fistulae	ENT SGD/SDLForeign bodies in ENT (Time: 3-4 pm) EN 4.49 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air & food passages PE 28.8 Discuss the types, clinical presentation, and management of foreign body aspiration in infants and children (Sharing with Paediatrics) EN 3.4 Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat.			Small Group Discussioon - Drugs used in ObstetRICT Misoprostol tablet, Dinoprostone gel, Inj. Magsulph, etc	EVENING CLERKSHIP		
208		LECTURE THERMOREGULATION PE27.24 Monitoring and maintaining temperature: define hypothermia. Describe the clinical features, complications and management of Hypothermia PE27.25 Describe the advantages and correct method of keeping an infant warm by skin to skin contact PE27.26 Describe the environmental measures to maintain temperature	LECTURE: IM5.16 Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy IM5.17 Enumerate the indications, precautions and counsel patients on vaccination for hepatitis IM5.18 Enumerate the indications for hepatic transplantation			SKILLS LAB/INTERNAL ASSESSMENT	EVENING CLERKSHIP		
209		ENT LECTUREFacial Nerve palsy EN 4.18 Describe the clinical features, investigations and principles of management of Facial Nerve palsy	LECTURE CHILD ABUSE AND NEGLECT PE.27.29 Discuss the common causes, clinical presentation, medico-legal implications of abuse			SKILLS LAB/INTERNAL ASSESSMENT	EVENING CLERKSHIP		
210		LECTURE O.G. 13.1 Discuss on management of patient in labor (first stage, second stage, third stage and fourth stage).	"LECTURE IM5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury"			SDL KLINEFELTERS SYNDROME PE32.11 Discuss the genetic basis, risk factors, complications, prenatal diagnosis, management and genetic counselling in Klinefelter Syndrome	EVENING CLERKSHIP		
211		LECTURE DOWN SYNDROME PE32.1 Discuss the genetic basis, risk factors, complications, prenatal diagnosis, management and genetic counselling in Down's Syndrome PE32.4 Discuss the referral criteria and Multidisciplinary approach to management	SU 14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general.				EVENING CLERKSHIP		

212		LECTURE IM13.3 Describe the relationship between infection and cancers. (Ca stomach and H.pylori)	LECTURE: IM13.1 Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India IM13.2 Describe the genetic basis of selected cancers (LYMPHOMAS)			SGD MALABSORPTION PE25.1 Discuss the etio-pathogenesis, clinical presentation and management of Malabsorption in Children and its associated disease	EVENING CLERKSHIP
